

The Kingston Daily Freeman.

FOUNDED IN 1871. CITY OF KINGSTON, N. Y., SATURDAY EVENING, JANUARY 7, 1922. PRICE THREE CENTS.

ICY WALKS CAUSE MANY BAD FALLS

The freezing weather at night and the warm weather during the day has placed the sidewalks in the city in a very dangerous condition, and pedestrians should take steps at once to clean off the ice from the walks or scatter ashes or other material over the ice to prevent pedestrians from falling.

Among the more prominently known men who have been badly injured by falls on the ice are John E. Tammany and Dr. Cornelius H. Bishop. Mr. Tammany is the senior member of the coal firm of Watts & Tammany. The other morning while walking down the East Union street hill to the car tracks on North street, he slipped and fell on the ice severely injuring his hip, and has been confined to his bed in a serious condition for several days past. Dr. Bishop is the well known central Broadway dentist, who resides in a broken hulk and other injuries by a fall on the ice.

A number of minor injuries have also been reported of those who fell on icy walks. The police department is busy locating those who neglect this important civic duty and reporting the sidewalks to the board of public works which is having the work of cleaning the walks done, and charging it to the property owner.

HARRY S. WATTS NOW PRESIDENT

The recently appointed municipal civil service commission met Friday evening at the city hall and organized. Harry S. Watts, of No. 200 Henry street, who was reappointed a member of the board, was elected president. The other members of the board are: Walter J. Weeks, of No. 73 Clinton avenue, and James S. McAndrew, of No. 39 Grove street. The board affirmed the appointment of Harold L. Van Dusen as secretary of the board. It was decided to hold the regular monthly meeting on the second Friday of each month. There was no other business to come up and the board then adjourned.

BOWLING ON THE Y. M. C. A. ALLEYS

Two matches were rolled on the Y. M. C. A. alleys in the Mercantile League Friday evening. The lace mills won all three games from the West Shore, and the Kingston Trust Company won two out of three games from the gas and electric boys. In its last game the trust company rolled a total of 538 pins, which is the league record for a single game.

A special meeting of the board of managers of the league will be held at the Y. M. C. A. on Monday evening at 7:30 o'clock. Each team should make it a point to be represented at the meeting as business of importance will come up.

The match between the silk mills and Everett & Treadwell was postponed until a later date.

The score Friday:

RAPID HOSE OFFICERS ELECTED

At the annual meeting of Rapid Hose Company held at their rooms on Hone street Thursday night the following officers were elected for the year 1922:

President, P. P. Zeeh; vice-president, George L. Kirchner; recording and financial secretary, William F. Walter; treasurer, John Hermann; foreman, John H. Berger; first assistant foreman, Fred J. Albright; second assistant foreman, A. Van DeMark; delegate to the H. V. F. Association, Fred J. Albright; delegate to the Fire Fund Association, George L. Kirchner and John Berger; finance committee, Peter Kullman, Joe Zeeh, Fred Sudheimer; refreshment committee, Fred J. Albright, Fred Sudheimer, Ed Geschwinder. After the meeting refreshments were served and a number of speeches made. A fine solo was rendered by Alderman Peter Kullman. Music was rendered by the company's own orchestra. The secretary, William F. Walter, made a speech, telling the members that for 23 years he has carried the records of the company and only was absent from two meetings in the 23 years as secretary.

SEDRAH EXCELS AS LOCALS LOSE

The locals' winning streak was halted Friday evening at the Mohawk armory when the team representing that city won out in a hard fought contest.

Jimmie Clinton and Borgman again led the locals in scoring, totaling seven and eight points respectively.

Sodran was the outstanding star of the evening, carrying three from the floor and six from the chalk line, a total of twelve points. His floor work also accounted for his team's victory. Friedman played eighteen minutes but was replaced by Waters, on account of his injured knee.

The Indians took the lead in the early stages of the game and showed the way to the locals throughout the contest. The first half ended in Mohawk's favor 10 to 7. Sodran was the referee. About 1,500 persons witnessed the contest. The score:

	FB.	FP.	TP.
Mallory, rf.	1	2	4
Sodran, lf.	3	6	12
Mooney, c.	0	1	1
Friedman, rg.	0	2	2
Dowd, lg.	2	0	0
Waters, rf.	0	0	0
Totals	6	11	23

	FB.	FP.	TP.
Borgman, lf.	2	4	8
C. Husta, rf.	1	0	2
Knoblock, c.	0	1	1
Clinton, rg.	3	1	7
Artis, lg.	0	0	0
Lehr, c.	0	0	0
Totals	6	6	18

Summary: Score at half time, Mohawk, 10; Kingston, 7. Referee, Sodran. Fouls committed, Kingston, 20; Mohawk, 19. Time of periods, 20 minutes.

AMSTERDAM AND COHOES WIN EASY CONTESTS

Amsterdam defeated the Schenectady five Friday evening at the former's court by a tally of 26 to 8. Three field goals were registered during the struggle. Amsterdam's accuracy from the foul line accounted for their win.

Glens Falls lost to Cohoes Friday evening at the latter's court by the score of 24 to 15. Barry, Tripp and Gilligan were the big point getters for their respective teams.

Terrilligan is Treasurer.
At a special meeting of Cordis Hose Company Thursday evening, the resignation of George A. Leverich as treasurer, was received with regret, and Ralph Terrilligan was appointed to fill the vacancy.

SHUT-INS ENJOY MUSICAL PROGRAM

A most delightful entertainment was given at the Tuberculosis Hospital Friday evening under the auspices of the St. Vincent de Paul Society of St. Mary's Church. The program, which consisted of vocal and instrumental music, given under the direction of David Long, was as follows:

Orchestra selection
Ballet's Orchestra.
Comic Song.....Paul Purcell
Vocal Solo.....Mrs. Percy Allen
Vocal Solo.....Reggie Palmer
Baritone Solo.....Frank Tierney
Duet, The Mission Carrie and Agnes Bruck.
Vocal Solo.....Miss Mary Oulton
Tenor Solo.....Martin Dunn
Comic Song.....Robert Carter
Baritone Solo.....Clarence Schryver
Selection.....Orchestra
Bass Solo.....Joseph A. Murray
Vocal Solo.....Al King
Vocal Solo.....Master John Kullman

At the close of the entertainment refreshments of cream and cake were served.

The officers and members of the St. Vincent de Paul Society extend their grateful thanks to the members of Ballet's orchestra, who generously donated their services for the occasion; to the entertainers, who so graciously gave of their time and talents to the Knights of Columbus, for the ice cream; to E. F. Thomas, for candy; to Mrs. Thomas Hayes and her co-workers, who furnished cake and assisting in serving. They also wish to thank the Very Rev. J. J. Hickey, William O'Reilly, Thomas Feeney, James Cullum, David Schenck and John McCord for the use of their automobiles in conveying the entertainers to the hospital and return.

The patients greatly enjoyed the lively music and comic songs and extended an invitation to come soon again.

RESCUE HOOKS' NEW OFFICERS

William F. Heybrück was elected foreman at the annual meeting of Rescue Hook & Ladder Company held at the rooms Friday evening. The other officers are: first assistant foreman, Joseph Radel; second assistant foreman, Frank Motrie; treasurer, Michael Edwards; secretary, William Pratt; trustees, John B. Glennon, Patrick Joyce and Daniel Reilly; delegate to Hudson Valley Volunteer Firemen's Association, at Mt. Vernon William Keegan; delegates to Kingston Veteran Volunteer Firemen's Association Joseph Radel and Michael Graney; delegate to Kingston's Fire Fund Association, Michael Edwards.

CASHIN 35 YEARS AN ENGINEER ON THE WALLKILL

Thirty-five years ago today, January 7, 1887, Martin J. Cashin took his first job as a locomotive engineer on the Wallkill Valley railroad and has been in continuous service since and his record is clear, as there is no mark against him. For 22 years every day excepting Sundays he ran the passenger train, leaving this city in the morning together with the late Patav Cahill as conductor, over the Wallkill Valley railroad back and forth over the line a distance of 160 miles for the daily round trips, carrying safely thousands of passengers. He is still on his job and there seems little doubt he will continue handling the throttle for eleven years more when he will reach the railroad age for retirement, which is seventy years. Mr. Cashin who is the father of City Treasurer John M. Cashin, was a friend of friends only along the line of the Wallkill Valley railroad but in this city, and is one of the leading members of Kingston Lodge of Elks.

P. S. C. DOES AS OUR ALDERMAN DIRECT

By Telegram to The Freeman.
Albany, Jan. 7.—Following the filing of a resolution adopted by the Common Council of the City of Kingston, N. Y., the Public Service Commission yesterday discontinued as satisfied a complaint by former Mayor Canfield against the Kingston Gas & Electric Company as to prices charged the public for electricity in that city. The action by the Common Council directed the withdrawal of the complaint and the discontinuance of the procedure.

Chanukah Play Sunday

A Chanukah play will be given at the Orpheum Theatre Sunday evening, January 8. Hebrew organizations are striving to make this play a success, as is also the faculty of the Hebrew school. One of the most spirited workers is Mrs. Edelstein who has worked very hard in making the costumes and other wearing apparel for the participants in the sketch of Hannah and her Seven Sons.

Days Property.
Miss Kathryn Hazard has purchased the property at 11 Brewster street where she now resides.

KINGSTON CHAPTER INSTALLS OFFICERS

Mrs. Florence Clarke Leverett is Worthy Matron, and William A. Van Valkenburgh is Worthy Patron—Revolving Officers Receive Gifts—Impressive Ceremonies.

It was installation night Friday evening at the first meeting of the new year of Kingston Chapter No. 155, Order of the Eastern Star, and the Star glittered with unusual brilliancy as the recently elected and appointive officers of the Chapter were inducted into office with the impressive Eastern Star ceremony. Following the installation a social hour was enjoyed and coffee, ice cream and cake were served by the refreshment committee. There was an unusually large attendance of Eastern Stars and Master Masons present.

The retiring worthy matron, Mrs. Jennie Frances Scott Main, and the retiring worthy patron, Edgar Powley, were presented with appropriate gifts by the members of the Chapter and the officers of 1921. Both replied briefly and thanked the Chapter and officers for the gifts which would ever remind them of a most pleasant and enjoyable year. The new patron and associate conductress were also remembered by their friends.

Mrs. Main in handing over the gavel to her successor spoke briefly of the work accomplished the past year by the Chapter, and thanked both officers and members for that which had been accomplished. During the year over forty-five new members had been received, and the Chapter now had a membership of 334.

The installation ceremonies were in charge of Past Patron M. Edgar Powley assisted by the retiring matron, Mrs. Main as marshal, and by Past Worthy Matron Nettie Rodman as assistant marshal, and Mrs. Edith Adele Damsford, Potter as chaplain. The regular and substitute officers of Kingston Chapter for 1922 are:

Regular Officers.
Worthy Matron, Mrs. Florence Clarke Leverett; worthy patron, William A. Van Valkenburgh; associate matron, Mrs. Carolyn R. Sullivan; treasurer, Mrs. Kate Eastman; secretary, Mrs. Elizabeth Terwilliger; conductress, Mrs. Minnie Charlotte Contant; associate conductress, Mrs. Elizabeth Van Valkenburgh; chaplain, Mrs. Edith Adele Damsford; Potter; marshal, Mrs. Minnie Nees; historian, Mrs. Hannah Freer Brangan; organist, Mrs. Edith Leroy; warder, Mrs. Ella Fairbrother; Adah, Mrs. Anna Ida Lauren; Ruth, Mrs. Marion Ethel Hudler; Esther, Mrs. Gertrude Smith; Martha, Mrs. Alida Drafen Van Dusen; Electra, Mrs. Kittie H. Buddington; color bearer, Mrs. Elsie Woodcock Tongue; sentinel, George B. Main; trustee, Mrs. Mary Kent Comstock.

Substitute Officers.
The substitute officers are: worthy patron, M. Edgar Powley; associate matron, Mrs. Nellie Clark Klotke; secretary, Mrs. Mary Kent Comstock; associate conductress, Mrs. May Linson; chaplain, Mrs. Elizabeth Ashworth Edmonston; marshal, Mrs. Jennie Frances Scott Main; historian, Mrs. Emma Gosle Carey; organist, Mrs. Gazeta Hardenburh Dennis; warden, Mrs. Sadie Oakley Wright; Adah, Mrs. Fanny Fields Wallis; Ruth, Mrs. Nettie Rodman; Esther, Mrs. Margaret Bishop; Martha, Mrs. Martha L. Barnett Lang; Electra, Mrs. Clara Elizabeth S. Skelton; sentinel, Charles Edgar Bishop.

NEWTON CALLS STATE DIST. ATTORNEYS' MEETING

Telegrams sent out Thursday by Attorney General Charles D. Newton from Albany to every district attorney of New York state requesting a meeting of such officials to be held in Albany next Wednesday, has attracted much attention throughout the state because of the unusual character of the gathering.

The telegram sent out by Attorney General Newton states: "Attorney General Daugherty has requested me to call a conference of district attorneys of the state for the purpose of taking some action for the better enforcement of the criminal law. In accordance with this request I am asking you to meet at the attorney general's office in the city of Albany on Wednesday morning, January 11, at 11 o'clock. Kindly advise if you can attend. If you are unable to attend personally will you have a representative?"

PASTOR CRANSTON'S CHURCH ASKS THAT HE REMAIN

At a largely attended meeting of the officers of the Clinton Avenue M. E. Church, held Thursday evening, a unanimous invitation was extended to the Rev. George M. Cranston to return to this church as pastor for the tenth year. Resolutions were adopted to be sent to the district superintendent and the bishop to this effect:

Who Knows Stokes?

Police headquarters received word from the New York office of the Cornell Steamboat Company Friday evening that a fireman named Albert L. Stokes, who is supposed to live on Andrew street, was unconscious at a hospital in Jersey City since Thursday night. Anyone knowing Stokes should communicate at once with the police.

One Ice House Fall.

Andrew Kohl has slid his ice house near his hotel on the Saengerle road with 250 pound 12-inch ice cut from Lake Katrine.

BINNEWATER ICE HARVEST MONDAY

The Binnewater Lake Ice Company of this city will start cutting ice on the Binnewater on Monday morning, and will start storing it in the house on South Pine street on Tuesday. The ice is said to be of excellent quality.

There is 10 inch ice on the Catskill creek and 9 inch ice on the river in that vicinity, and ice men say that it only needs a couple of cold days to put the ice field in condition for the big harvest.

The Knickerbocker Ice Company at Catskill stated that operations depended entirely on the kind of weather coming. They admitted the prospects were good if a cold spell sets in. Burns Brothers expected to begin housing ice at Rattlesnake Island Thursday, but were deterred by the water and thawing condition.

There is ice averaging 9 inches in thickness on the Rondout creek, and the river ice is about the same thickness of Kingston Point. At Port Ewen preparations are being made to harvest a crop, and all along the river ice will be harvested as soon as weather conditions permit.

UNION HOSE CO. ELECTS OFFICERS

Chris A. Murray was elected president of Union Hose Company at the annual meeting Friday evening. The company also elected the following: Foreman, George D. Matthews; first assistant, Nicholas Matthews, second assistant, Harry Krum; secretary, Edward F. Moran; treasurer, James J. Collins; representative to Kingston Fire Fund Association, Francis A. Cashin; delegate to H. V. F. A. at Mt. Vernon, James J. Collins; representatives to Kingston's Veteran Volunteer Firemen's Association for 3 years, George D. and Nicholas Matthews.

A social hour and smoker with vaudeville by the members followed the business session. The cigars were furnished by Rose, Gorman & Rose, and that firm was extended a rising vote of thanks.

AUTOMOTIVE MEN HAIL STRYKER

President Able to Attend Meeting After Long Absence, Re-elected to a Third Term—Why Glass Couldn't Be Treasurer—Mack Solves Problem of Space.

The Kingston Automotive Dealers' Association annual meeting, held Friday evening in the private dining room at Pessner's, was presided over by President Henry W. Stryker for the first time in several months. Mr. Stryker's health had been so greatly impaired that he had been unable to attend meetings. His arrival was greeted with cheers and applause and when it came time to elect officers he was unanimously elected for a third term. Roy M. Suttill was elected vice president; Charles N. Behrens, secretary; and Lewis Brown, treasurer. The election of treasurer was not accomplished without a mighty struggle. John Mack having nominated William P. Glass and backed up the nomination with an argument that with Glass in the treasury it would be easier to see the money. This argument might have prevailed if somebody had not said that with Glass as treasurer someone might get a pane.

The vice president's pipe was also discussed at length and an argument reached that one of the vice presidential duties at all meetings should be to take the pipe outside for an airing. The vice president was given the alternative of giving up either pipe or space at the coming show.

John R. Millard presided with grace, dignity and aplomb during the election, sustaining his nerves by smoking cigarettes.

Relative advantages of an early or late date for the show was discussed at length, with great heat and simultaneously by all present and a medium date was tentatively agreed on, March 9, 10 and 11.

Discussion of the allotment of space was begun and threatened to become exciting, as there are two new dealers who want space, but all difficulties were swept away by John Mack generously offering to donate to the new men the space he had last year in the back room.

A Still Alarm.

Wiltwyck Hose Company responded to this afternoon to a still alarm sent in from the United Drug Company's store on Wall street. A large amount of smoke resulted from a small fire in the prescription department, which was extinguished with chemicals. The damage was slight.

Ladies' Aid Contributed.

In the list of contributors to the jam showers for the T. B. Hospital should be included 35 glasses of jelly and jam, 10 pints of preserves, 4 quarts of preserves, 1 quart of mince, meat and magazines from the Ladies' Aid Society of St. James's M. E. Church.

Social Monday Evening.

Monday evening a social will be held at the residence of Mrs. S. H. Merritt, 244 Clinton avenue, to which all members and friends, both men and women, of the Junior Ladies' Aid Society of St. James's M. E. Church are invited to attend.

FIVE BIG POWERS OF WORLD PLEDGE NOT TO USE GAS IN WAR

Root Resolution Quickly Put Through at Secret Session of Arms Conference—Called Inhuman and Indefensible.

By Telegram to The Freeman.
Washington, Jan. 7.—Poison gas was banned today by the five great powers of the world as an inhuman and indefensible weapon of warfare. The resolution, fathered by Elihu Root, condemning the use of gas in warfare and pledging the powers here not to utilize it, was passed with the full approval of all the powers in today's secret session in the Pan-American building.

PVT. PERSONEUS'S BODY ARRIVES

The body of Private Merritt Personeus arrived at Ashokan Friday, January 6, and was taken to the home of his mother, Mrs. Catherine Personeus in Shokan. Private Personeus was killed in action July 26, 1918, while serving in France with Co. C, 7th Infantry. His mother, four brothers and two sisters survive him. A short funeral service will be held at the home of his mother in Shokan on Sunday morning, January 8, at 10 o'clock.

Interment in the Olive Bridge Cemetery with military honors.

S. AND L. ASS'N ANNUAL MEETING

The annual election of the shareholders of the Kingston Cooperative Savings and Loan Association was held Friday evening at the office of the association in the Leventhal building, 258 Wall street, when the following were elected as officers: E. T. Stelle, president; A. D. Padden, vice president; Arthur C. Connelly, secretary and attorney; S. D. Scudder, Jr., treasurer; Cornelius Hunt, George W. Frodenburgh, E. Otis Van Aken, William A. Frey, Theodore Brink, E. Frank Flanagan, Charles B. Everett and Arthur J. Burns, directors. The annual reports of the secretary and treasurer showed a remarkable increase in the annual business of the association, the amount of paid up shares showing a particularly large increase. The regular dividend period is in March.

ODDS AND ENDS.

A number of friends surprised Mrs. Leonard Hazard Friday evening at her home on Brewster street.

The Rev. J. Sidney Gould of New York city, will occupy the pulpit of the Rondout Presbyterian Church Sunday morning.

A meeting of the society of Daughters of Jacob will be held Sunday afternoon, January 8, at 2 o'clock at the Hebrew school.

The Henrietta Wynkoop Guild of the First Reformed Church will meet on Monday, January 9, at 2:30 p. m., at the home of Miss Helen Loughran, 23 John street.

St. John's Episcopal Church, Wall street,—Holy communion, 8 a. m. Morning prayer and sermon, 10:30. Evening song and address, 7:30. Sunday school, 9:30. The Rev. Dr. Henry Austine.

Mrs. Jason E. Carl and Mrs. Harry Whitney will entertain the Willing Workers Sunday school class Monday evening at a Japanese house garden party. A brief business meeting will be held at 7:45 o'clock. A social evening will follow.

ABOUT THE FOLKS.

Mr. and Mrs. L. Mason and daughter Dolores, who spent the holidays at the home of her parents, Mr. and Mrs. W. Connor, of O'Neill street, have returned to their home in Troy.

Mr. and Mrs. John Schick of 81 Dowitt street, are receiving congratulations over the arrival of a nine pound baby girl. Mother and child are doing nicely, under the care of Dr. G. W. Ross.

Miss Sallie Matthews of 116 Downs street, who has been spending the holiday vacation at the home of her parents, Mr. and Mrs. Ward Matthews, have returned to Scudder school, New York city.

The editor and publisher of the New Paltz Independent, Ralph LeFevre, who underwent a serious operation at the Benedictine Hospital, the early part of this week, performed by Dr. O'Meara assisted by Dr. Baldwin of New Paltz, is convalescing.

LOCAL DEATH RECORD.

Recent Deaths and Funerals at Persons in This Vicinity.
Isabella J., daughter of Thomas and Elmina Van Derzee, age 13 years, died today at her home on Pine street. The funeral will be held Tuesday afternoon at 2 o'clock from the Franklin Street A. M. E. Zion Church. Interment in Mt. Zion cemetery.

BOLAND PREDICTS DEVALERA DEFEAT

As Dail Goes Into Decisive Session After Ruling "President's" Resignation Out of Order.
By Telegram to The Freeman.
Dublin, Jan. 7.—Dail Eireann today ruled that the resignation of Eamonn de Valera as president of the Irish republic, was out of order. It had been tendered during the meeting of Dail Friday afternoon after the members had failed to reach a compromise on the Irish peace treaty.

"No one can tell which side will win," said Michael Collins in an interview just before the afternoon session opened.

Harry Boland, although a supporter of de Valera, predicted that the Griffith-Collins faction would win with a margin of several votes.

ROEHRIG TO SPEAK TO MEN'S CLUBS

The committee in charge of the Men's Club banquet, to be held at the Y. M. C. A. on January 20 have been very fortunate in securing C. H. Roehrig, of Boston, as the principal speaker of the evening.

Mr. Roehrig has had a wealth of experience in work with boys, not only in and about Boston, but in New York and New Jersey. He was in service during the Spanish-American war, and has travelled a great deal in this country and is an excellent speaker.

Many of the Men's clubs have already signified their intention of attending in a body, and the indications are now that there will be more than 300 men present.

It is expected that Palmer Canfield, Jr., will be the toastmaster of the evening.

PORT EWEN.

Port Ewen, Jan. 7.—Mrs. S. E. Elphinstone of Kingston called on friends in Port Ewen Wednesday.

Thomas Tucker of New York city is spending some time at his home on Broadway.

Carl Hotelling of Broadway, the Port Ewen Freeman carrier, who has been ill, is able to be on his route again.

On account of the icy sidewalks and roads people do not venture out these days.

Church notices for Sunday.
Methodist Episcopal Church, the Rev. George E. Wright, D. D., minister. Sunday school, 10 o'clock. Morning worship, 11 o'clock. The "Victory." Holy communion will be observed. Evening worship, 7:30, theme, "Life's Motive." Everlastingly cordially welcome to these services.

Church of the Presentation, the Rev. L. A. Geary, pastor. Mass 7:30 and 10:30 a. m. Sunday school 2 o'clock.

George Sherman of Brooklyn was the guest of Mr. and Mrs. Benjamin Wells on Broadway Friday.

There will be a meeting of the Ever Ready Club Monday evening, January 9, at the home of Mary Bishop. Mrs. Clarence Freer and Miss Bishop will be the hostesses of the evening. Each member is requested to bring scissors. There will also be election of officers at the business meeting and it is necessary every member be present.

Reformed Church, the Rev. L. Appeldoorn, minister.—Sunday school, 9:30. A. M. Taylor, superintendent. Morning worship, 10:30. "The Willness of the Heart." Y. P. S. C. E., 6:45; topic, "Utilizing Opportunities." Leader, Miss Louise Potvin. Evening worship, 7:30. "Why I Am Not a Russellist. Millions Now Living Will Ever Die." All are welcome to these services.

SOCIETY NOTES

Mr. and Mrs. Joseph Frazer, formerly of Glasco, have announced the engagement of their eldest daughter, Dorothy to Wilbur Hayes of Schenectady. Miss Frazer is a telephone operator in Schenectady. Mr. Hayes is an electrician in the General Electric Company. Miss Frazer was formerly a resident of Glasco.

Fowler-Every.
George Fowler of Albany and Ann M. Every of this city, were married in Schenectady Tuesday, December 27. They will make their home in Albany.

ROCK AND WRAP STRAIGHT-LINES

Lower Garments Are Thriving;
the Silhouette Pleasing,
Authority Asserts.

ART OF PARISIAN DESIGNERS

From France Grow More Pleasing; Though Their General
Outlines Remain According to
Established Precedent.

From the straight-line frock we can't
begin to break away—even by way of
this, observes a fashion authority in
the New York Times. Everything that
comes across the water does more to
reinforce that line, far from stealing
to any less favored paths. Don't
think for a moment that this tendency
straightens out the silhouette has
anything of monotony about it. On
the contrary, it seems as though the

One of Drecoll's Ideas of Afternoon
Coat in Black Satin

had infinite possibilities of devel-
opment. We think that every known
style has been exhausted, and then—
and behold! there appears a totally
different conception of the same line.
In newer frocks are thrilling, that is
there is to it. And the prayer of
the American woman, that the straight
line in last seems to have its an-
swer always in the affirmative.

Lines grow more picturesque as
the pose on, even though their gen-
eral outlines remain quite according to
established precedent.

The black and white dress follows
in liking for the strong contrast of
the two colors which is so character-
istic of Parisian dresses just now. Only
the sleeves and the portion of the
skirt from which they spring are of
the white georgette. The rest of
the gown is made of a beautiful soft
black velvet, trimmed around the bot-
tom of the skirt with delicate lace
work in an interesting pattern of
flowers.

Cuffs Are Attractive.

The cuffs of the sleeves are, per-
haps the most attractive part of this
dress, for they accentuate that width
and the lower portions of the sleeves
which, just at the present time, adds
a desirable air of smartness to
the gown. There are those who pre-
fer that the wide sleeves will shortly
disappear from fashion's ways—in
that it cannot be said in regard to the
newer models that this statement has
been in the least way demonstrated.
Cuffs seem to be even wider and
more picturesque.

Then the French are so pleasant
in everything they design. They
are actually managed to create long
lines that really do not get in one's
way, but that by reason of the subtle
ways they do to them. For instance,
one of the longer sleeves are
made than not to be decorated with
a very heavy trimming at the end
and lightweight material. Now, this
trimming does a real service in that
it automatically drops back the sleeve
and is held up. So, as one
moves, one finds that
the sleeve is being miraculously lifted
and contact with the air is along
the cuff, just because the heavy cuff
is holding its own part in the game.
One will find this happening over
and over again on the French dresses,
and it is not afraid to try wearing one
of your imagination has been
in picturing their awkwardness.
They are so graceful, indeed, that they
impel you to throw your
about in competition with the
other dancers. You become fasci-
nated with the manners of your own
and it seems interesting to see
how cleverly they will behave.

Lower garments are made on

the same general plan, and with the
same subtle reasoning lying behind the
manner of their far edging. Schemes
of this character will be seen on many
of the new afternoon coats, and all
one can say for them is that they cer-
tainly have a way of making the coat
about as graceful a garment as has at
any time been seen in any wardrobe.

The fact is that the modern coat is
running a close second to the gown for
interest in design and for general he-
comeliness. In the past there has been
some reason to complain that coats
were clumsy in appearance or that
they ran to the other extreme and
were overdone in the way of glar-
ing trimmings. But now all of that
has been artistically overcome in both
directions. The coats and wraps
strike that happy medium of design
which is so desirable and so filled with
charm.

There is no reason why the coat now-
adays should not be just as becoming
as the frock. Sometimes it is even
more so. But it is an inspiring expe-
rience for any woman to be able to wear
a beautiful gown covered by a beauti-
ful wrap, knowing in her heart that
when she sees fit to remove the outer
garment she has in store for all on-
lookers a complete change of scene.

The coats are warm, too, by reason
of their featherweight and woolen in-
terlinings. There is nothing obvious
about woolsens in these modern days—
nothing too plain and unbecom-
ing. They are all concealed under soft chif-
fons and silks and velvets and duv-
etynes. But they are on hand none the
less to defy any cold breezes and to
make the winter weather pleasant no
matter what the social occasion. Time
was, you know, when if one cared to
be interesting looking in winter then
one made up one's mind to freeze
gently but willingly. There was no
chance for gracefulness combined with
warmth. But now all that has changed,
and the more delicate a wrap looks the
more one may be sure that it has
tucked away in its inward some fairly
padding that guarantees it for winter.

Of Heavy Black Satin.

One of Drecoll's coats is made of
heavy black satin, and for its lining
there is all that "extraneous" we have
just been describing. The far about
the neck and sleeves is gray, the em-
broidery which is concentrated on the
sleeves is also done in gray, and the
lining, to repeat the general color
scheme, is a soft gray crepe.

This desire for black and gray has
become a general one during this pres-
ent winter season. In all sorts and
conditions of wraps and ways the
union of the two colors is demon-
strated. Really, one feels out of the
general running if one has not at least
one costume made of these two colors.
Each of them seems to give life to the
other, and it may be said that seldom
has a combination of two shades be-
come so generally flattering.

The black coats trimmed with er-
mine or squirrel or any of the other
gray furs are much in demand. The
blacks are those materials which have
thick, heavy naps, and which by reason
of this texture manage to look so
much blacker than the usual blacks.
There is nothing dullest or dull about
their surfaces, for they shine and glit-
ter in the sunlight, raising them com-
pletely out of the funeral class. Black
of this character does not seem to be
black, but is really a color, especially
when it has some gray surfaces to
show it in delightful contrast. Then
there must always be considered those

gray stockings with black shoes, which
do so much to accentuate the color
scheme by repetition. And gray suede
gloves are just about as good as any-
thing that has ever been popular for
the covering of the hands. They are
much more in key than white ones
could be and not nearly so difficult to
keep looking the pink of perfection.

Color in these afternoon wraps is
not so greatly in evidence as might
have been imagined from advance re-
ports. Still, one sees coats of deep
purple, and those of the reddish tones
which are awfully good looking. A
deep red Kashia cloth cape, trimmed
with white collar and cuffs of ermine,
is an interesting importation.

Life's Darkest Moment.

I came running home and told my
wife I had a date with the prettiest
girl in school. She said I could not
go until I wore long trousers. After
supper I decided I would slip off and
go. So I went to my room, dressed
in the dark and beat it. Just as I
stepped in the door at the home of
the girl, I looked down to see what
kind of a job I had done facing my
shoes in the dark. But no sooner had I
looked than I backed out of the door.
For my aunt had sewed white ruffles
on the bottom of my short trousers.—

Miss
Mary
Lygo
INTL.

Chicago—Charming breach of promise, Miss Mary Lygo, former
Follies beauty, has filed suit against Gordon C. Thorne, millionaire,
of this city, for \$100,000. She seeks a similar amount from his mother,
Mrs. William Camp, whom she charges with slander. Miss Lygo, just
from the hospital after her second attempt of suicide for love of Thorne,
based the suit on Thorne's statement that he will not wed her out of
respect for the wishes of his mother. Under the Illinois laws he would
be unable to marry any one until next June, a year from the time he
was divorced by Mrs. Virginia Milner Thorne, society beauty. In her
suit against Mrs. Camp she charges she was called a "vampire" and ac-
cused of "dragging Thorne down, down, down." Miss Lygo's associa-
tion with Thorne became known last spring, when she slashed her wrists
with a razor on learning that he had a dinner engagement with another
girl. Shortly afterward he was divorced and charged with drunkenness.
He is now in Florida.

Life's Darkest Moment.

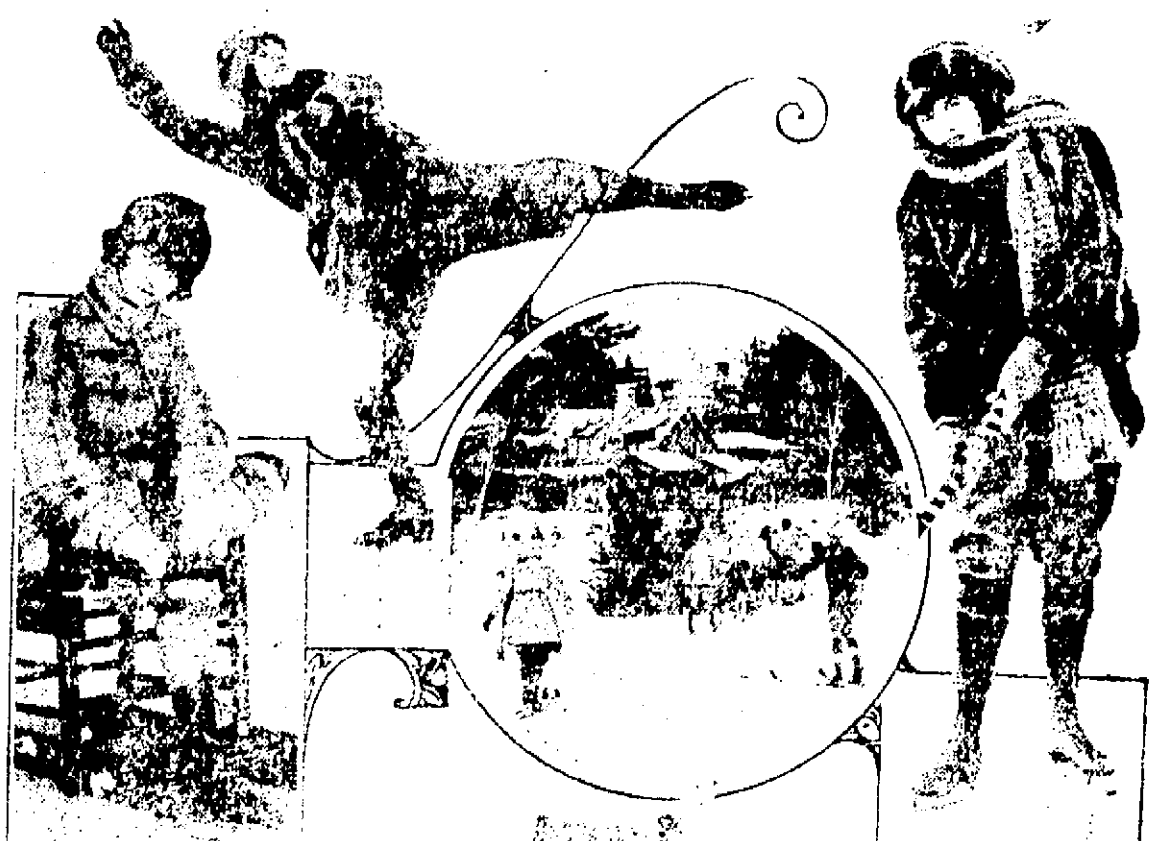

I came running home and told my
wife I had a date with the prettiest

Bacteria Thrive on Ice.

It has long been known that no de-
gree of cold yet attained will kill
bacteria. Yet it might be supposed
that they must at least be dormant
when embedded in eternal ice. Yet
Dr. A. L. McLane found them alive
and active in the ice many feet below
the surface in the Antarctic expedi-
tion conducted by Sir Douglas Mac-
donald in 1911-1914.—Detroit Free Press.

Amphibious Auto Trailer.

An automobile trailer shaped like a
boat that can be used to navigate
water has been patented.

The season of Lake Placid, New York, is now on in full swing. Many of the visitors here have in former
years come to the resort for the winter sports, but now they claim they find all the sports they want at this
resort. People from all over the country are making Lake Placid their winter home. The above illustra-
tion shows some of the fair participants enjoying themselves in the lower left hand corner is Miss Kath-
leen Davis of Garrettsville, Ohio, adjusting her skates, preliminary to taking a spin over the ice. Above
is Miss Helen Knicker of Warren, Ireland, who spends many hours enjoying her skates with exhibition-
ary fancy figure skating. In the center are members of the younger set on the sled in the Hare and Hound
Skiing Tourney, and on the right is Miss Marie Ringler of New York, an ardent hockey enthusiast.

Tunnel Ventilation Tried.

The test of the old tunnel system
in a model vehicular tunnel, a replica
of the proposed Hudson River tunnel
from New York to Jersey City, con-
ducted at the experimental mine of
the United States bureau of mines at
Brunston, near Pittsburgh, was con-
sidered a success by the bureau's
officials and members of the New Jer-
sey Bridge and Tunnel commission
who attended.

Experiments were made to deter-
mine the effects of motor exhaust
gases, the heat and the smoke, and the
best methods of eliminating all such
effects on motorists in tunnels.

Discovered at Last.

A chance in the function of the pitu-
itary body, one of the smallest of the
ductless glands, which is about the
size of a pea and is hidden on the
underside of the brain, is responsible
for the increase of divorce, according
to Dr. Ernest B. Tucker, of New York.

This statement was made at the an-
nual convention of the American Oc-
cupational Association of America. The
growing wealth of the country and the
increased standard of living is partly
responsible for the change of function
in the gland and also contributed to
the divorce epidemic.

Women vs. Men.

According to a famous London
specialist women cannot stand pro-

ANNUAL MEETING OF THE LIBRARY

The Annual Meeting of the Kingston City
Library Association will be held Wednes-
day, January 11, 1922, at 7:30 o'clock for
the purpose of electing trustees in the place
of Walter T. Hale, Frank Lawton and
Robert K. Leighton whose terms of office
expire on that date, and for such other
business as may come before it.

R. K. LEIGHTON, Secretary.

SONS JOIN STYLES
IN BUSINESS

Long Established Jewelry Firm Is
Now George B. Styles and Sons—
Its History.

George B. Styles, who for fifty-
five years has conducted a jewelry
business in Kingston, on the first
day of January took into partner-
ship his two sons, George B. Styles,
Jr., and Harry C. Styles and on that
day the firm of George B. Styles
& Sons came into existence.

Mr. Styles, who on February
10th will be 82 years of age, is still
actively engaged in the business and
daily attends to the business at the
store. At the age of 16 Mr. Styles
went to New York city where for
the next ten years he worked learn-
ing the watchmaker's trade and
jewelry business. In 1866 he re-
turned to Kingston and started in
business for himself on Crown
street next to the post office. At that
time William Kerr was postmaster.
From Crown street Mr. Styles moved
to the Dr. Myers building on North
Front street and later to the Wyn-
koop building on Wall street now
occupied by the Up-To-Date Com-
pany. He remained in this building
for 38 years until 10 years ago when
he purchased the property at the
corner of Fair and John streets, op-
posite the Kingston Opera House.
He converted the residence prop-
erty into a modern store and office
property and it is here that the
business has since been conducted.

Last November Mr. Styles cele-
brated the 55th anniversary of his
starting in business. Although nearly
82 years old Mr. Styles still con-
tinues the watchmaker's trade and
is still more active than many men
several years his junior. Mr. Styles
is an enthusiastic hunter and fisher-
man and loves to break away from
business and tramp through the
woods in search of game or spend a
day fishing.

Both George B. Styles, Jr., and
Harry C. Styles learned the trade
with their father, George B. Styles,
having been engaged in the business
33 years last August while his
brother Harry had been working
with his father 29 years last
August.

Mr. Styles's grandfather
was engaged in the jewelry
business in Rhinebeck in 1728, later
moving to Kingston where he con-
tinued the trade, his son however
did not follow the jewelry business,
but in 1856 the jewelry business
was again taken up by the family
when George B. Styles went to New
York and learned the watchmaker's
trade and ten years later opened his
store in Kingston.

While engaged in business on
Wall street in the year 1879 Mr.
Styles suffered serious loss when
the store occupied by him was
burned in the big fire which gutted
the bank building on the corner and
the next two buildings extending as
far as where Forsyth & Davis are
now engaged in business. In this
fire Mr. Styles suffered a loss of
stock amounting to \$12,000.

Mr. Styles is a watchmaker of the
old school, learning his trade under
one of the old masters in Kingston
has worked faithfully at his trade.
The new firm of George B. Styles
& Sons will continue to do business
under the same policy which has
been followed for over half a
century by George B. Styles.

Exalted Pilferer.

The custom of stealing a poor man's
patent and claiming it as one's own
is pretty ancient. Governor Phil-
tuerus of Pergamum, a city in Mysia,
Asia Minor, is cited as one of the first
examples among the exalted pilfer-
ers, for archeologists give him the
credit of having invented the art of
making parchment in 230 B. C.,
though they admit that it was prob-
ably a humble artisan who first con-
ceived the idea of preparing the skins
of animals in such a way that they
could be used for writing purposes.
Phileturus by the way, didn't enjoy
his laurels over-long. He lost his
province to King Attalus, in 197. And
this ruler, taking advantage of the
existence of parchment, established a
library which, in those days, was con-
sidered quite a marvel. It contained
all of 300 manuscripts.

"Naboth's Vineyard."

The phrase "Naboth's Vineyard" is
an expression used to denote any pos-
session greatly coveted by others. It
is handed down from Biblical times.
Naboth's vineyard was in Jezreel, and
was greatly coveted by Ahab (917-898
B. C.), king of Israel. Naboth, how-
ever, declined to sell the vineyard to
the king or to exchange it for an-
other, and was, in consequence, cruelly
murdered on a false charge of blas-
phemy. He was deceived by the in-
famous queen, Jezebel. Ahab took im-
mediate possession of the vineyard,
but was met by the prophet, Elijah,
who denounced the wickedness of the
king and queen, and foretold the aw-
ful doom that awaited Jezebel and her
children.

Roads Speedily Resurfaced.

Closing London's busy roads for
several days while they were re-
surfaced was inconvenient and interfered
seriously with traffic. A new method
permits the road to be completely re-
paired and opened to traffic again
three hours after the repair crew goes
to work. Tar is vaporized in a trav-
eling cart and pumped through the
sprayer at high pressure, which forces
it deeply into the bed of the road.
While the tar is still hot, there are
men following behind the sprayer to
sprinkle fine gravel over the surface,
and as soon as the tar hardens, which
takes only three hours, as stated
above, the road can be thrown open
for traffic—Popular Science Monthly.

Clothes From the Hedge.

The children of Nantgwynant, Car-
narvonshire, are taught to dig out
sheep's wool from the hedges and
make it into articles of clothing. The
chief occupation of the district is
sheep-farming, and there is much

wool to be found on the hedges
and bushes on the mountainside.
Children collect this and bring it to
the school, where it is washed, dyed
with lichen from the neighborhood, or
with logwood or fustic, or a combina-
tion of them, and afterwards teased,
carded and spun. The yarn thus
produced is made up into articles of
clothing such as vests, scarfs, caps
and gloves.—London Tit-Bits.

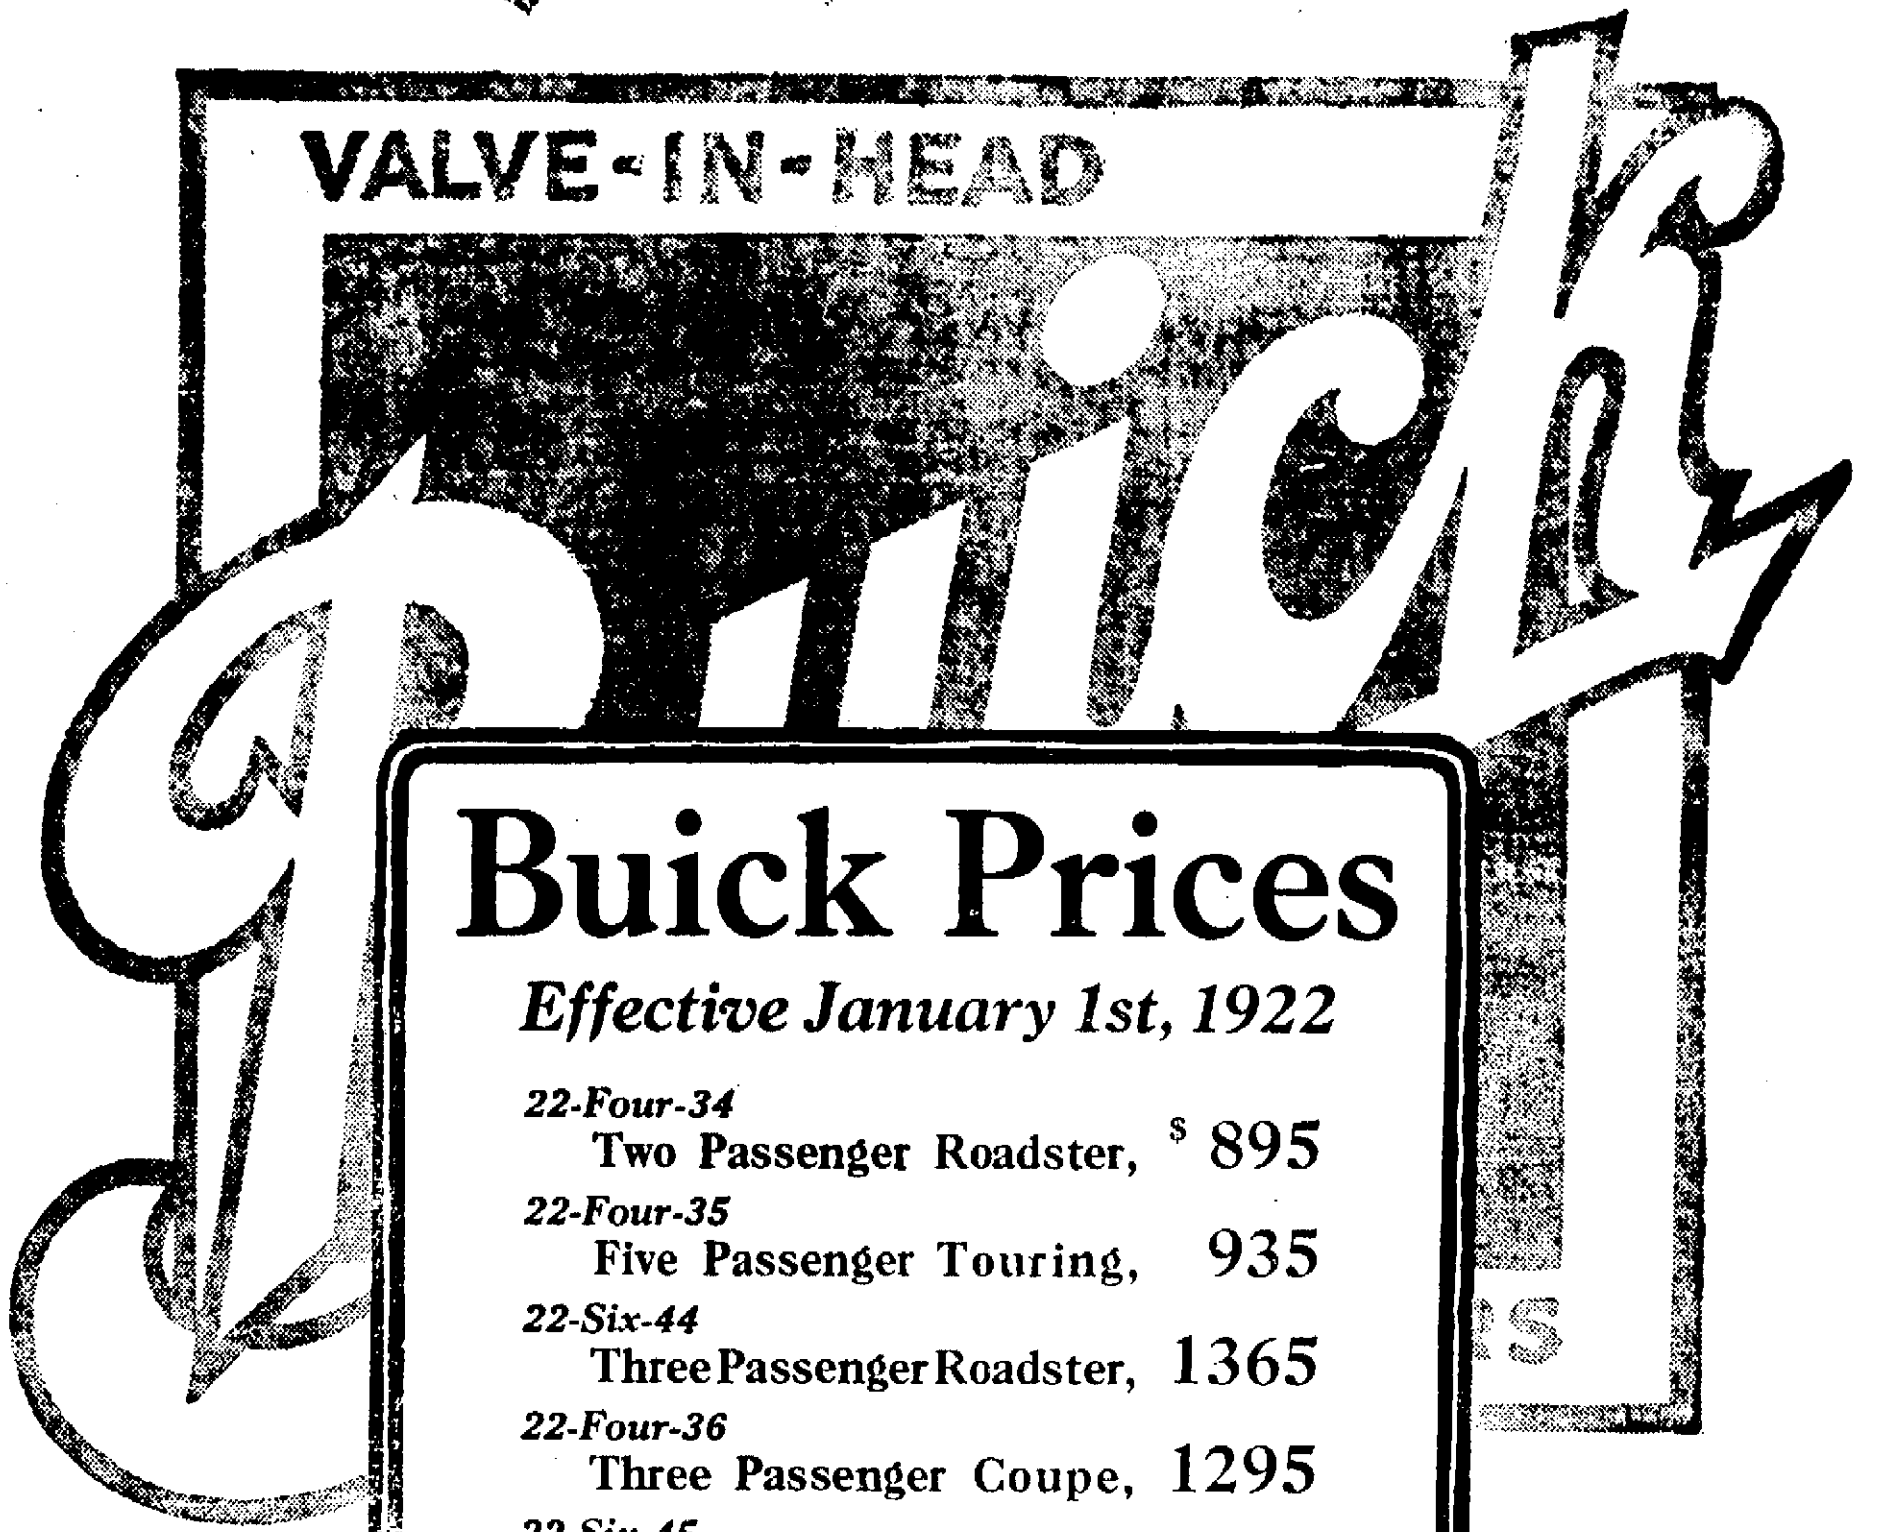

Where Old Ship Rope Goes.

Rope from ships that have sailed
the Seven seas—that has been tied to
every port in the world—ends its car-
rier by guarding the nation's telephone
conversation. From junk rope is made
the high grade paper which insulates
every wire in a piece of telephone
cable. Over 13,000,000 pounds of old
rope were fed to the plant vats which
tore, cooked, washed and beat into a
pulp the makings of 7,000,000 pounds
of cable paper used by the Bell tele-
phone system last year.

Cliffs Wrecked by Snails.

You might not believe that he was
serious if someone told you that sea
snails are entirely responsible for the
fact that England is an island.
Yet it is quite true, for the land which
once joined England and France has
disappeared through the activities of
these tiny creatures. There are many
sea snails which are able to bore in-
to hard rocks. They do this partly
by means of a dissolving fluid which
they secrete, and partly by the action
of their tongues. Boring into the base
of a cliff, the snails make it with
their galleries, so that it becomes less
and less able to withstand the attacks
of the sea. In course of time a great

N. Y. REUNION OF ULSTERITES

Former residents of Ellenville, Kingston, Stony Hollow, Saugerties and other parts of Ulster county will hold a mid-winter reunion on Thursday evening, January 26, at the Twelfth Regiment Armory, Sixty-second street and Columbus avenue, New York city, under the direction of the Rev. Joseph L. McCann, who is a native of Kingston and at present pastor of St. Mary's parish at Ellenville.

Every effort is being made to reach all the former residents of Ulster county now residing in the vicinity of New York, and with the co-operation of the Ulster county committee and the flourishing Community Center of Holy Trinity parish, West Eighth-third street, New York city, with which Father McCann formerly was associated, elaborate plans have been formulated, which necessitated engaging the spacious quarters of the Twelfth Regiment Armory to accommodate the strong following of those two organizations. Patrons of the reunion were Judge William D. Cunningham, the Hon. William E. Cleary, Daniel Griffin, Prof. John T. Loughran, the Hon. Andrew J. Cook, Dr. John Larkin, Lawrence M. Kenney, Anthony F. Burke, Cornelius E. Cleary, John J. McDermott, William C. Bergen, E. A. Kelly, John R. McCallum, George McMullen, E. F. McMullen, Matthew M. Kenney, Martin Lodge, Frank McCann and Julius V. Burgerin.

The committee in charge of the reunion is composed of James O'Reilly, Cornelius J. Kishner, Francis P. Murphy, William H. Cunningham, James Trell, Phil Clearwater, Thomas McCann, Daniel Joseph, George Birmingham, Bernard Nicholson, Joseph Purcell, Daniel Galvin, Thomas Trell, Daniel Starr, Daniel Walsh, Richard Johnson.

ROSENDALE.

Rosendale, Jan. 6.—Mrs. Conrad Postkoke and son Frederick, have returned to Brooklyn, after having spent the holidays with Professor Postkoke on lower Main street.

Harry Weep has returned from his visit to New York city.

Silas Snyder, former town clerk, has moved from the Dockstader building and has established his new business quarters in Luther Deyo's store.

Miss Dolores Hayden has returned to her schoolwork in Bayonne, N. J.

Miss Caroline G. Anderson is back again at her school duties in this village, after having spent the holidays with relatives in Watervliet, N. Y.

The children in this village have been enjoying greatly the sleigh riding during the recent school vacation.

Miss Fanny Ten Hagen entertained Mr. and Mrs. Jesse Bowen of Poughkeepsie, and Mrs. Kate Davis and her two daughters from the Plains on Sunday afternoon.

Miss Mary Ten Hagen has returned to Belleville, N. J., where she teaches school.

Miss Fanny Ten Hagen, Harry Ten Hagen and Mr. and Mrs. Harry V. Ten Hagen, spent New Year's Day with Mr. and Mrs. Lewis Ten Hagen of New Paltz.

Mrs. J. Darrow of New York city, visited her son John, who is stopping with Miss Caroline G. Anderson.

Mrs. Ralph Lefevre and Mrs. Edith Paradies, were among the shoppers to Kingston on Thursday.

Miss Wilma Postkoke has returned to her home in this village, after spending two weeks in Brooklyn with friends.

Lloyd Lefevre sailed for Orlando Beach, Florida on Saturday, where he will hold a position during the winter months.

Mr. and Mrs. Jesse Bowen, of Poughkeepsie, were guests of Mr. and Mrs. Ralph Lefevre on Monday last.

Rumors are current that the well known firm of H. and C. I. Lefevre, coal, lumber and feed dealers of this village, are desirous of selling their business.

Mrs. Harry V. Ten Hagen spent Wednesday in Kingston with relatives.

Seized Boonze-laden Auto.

A rich haul of booze, consisting of 400 bottles of "Black and White" whiskey worth about \$6,000, was made in Poughkeepsie Thursday morning. Three men with the auto were also arrested. The sheriff's office had received a tip from Red Hook that a car suspected of carrying booze had passed through the village headed toward Poughkeepsie.

WOODSTOCK.

Woodstock, Jan. 7.—The Rev. J. F. Nicholas, D. D., will preach at 11 a. m. on "What is Left of the Doctrine of Predestination," which will also be delivered at 2:30 p. m. At 7:30 subject, "Knowing the True God."

Canyon 4,000 Feet Deep.

Tuolumne river rises in a group of gneiss lakes on or near the Sierra divide in California. The river flows through beautiful upland meadows in its upper part and then through a canyon, nearly 80 miles long, which it has cut in solid granite. For a distance of about 25 miles, according to the United States geological survey, Department of the Interior, the upper part of this canyon is 3,000 to 4,000 feet deep and is known as the Grand Canyon of the Tuolumne. At the lower end of this canyon lies Hetch Hetchy valley, which is smaller than the Yosemite valley, but resembles it very much in every other way. The river finally passes through its lower canyon into the San Joaquin valley.

Bursting Steel.

An experiment which demonstrated the capacity of steel to endure greater pressure than the hardest stone was recently made. Corundum was chosen for the stone and small pieces in the form of cubes of both substances were placed under pressure. A weight of six tons smashed the corundum, but forty-two tons were required to crush the steel. When the steel did give way, the effects are described as most remarkable. With a loud explosion, the metal flew into powder, and its sparks are said to have bored minute holes in the crushing machine.

THE OFFICE CAT

By Junius

When the old-fashioned girl was fitted her parents considered it a calamity, but now they consider it a business opportunity.

Henry Ford is going to make "air fitvers." Remember, Hen, you can't get out and crank an airplane when the engine stops.

Corn may make good fuel, but nobody wants to eat coal.

Chant: "Did you hear of the awful fright Frank got on his wedding day?"

Jack: "Yes, I was at the church. I saw her."

A pedestrian chortled with glee. Said, "Zooks, they won't run over me!"

So he took a chance. And the seat of his pants came in with the morning debris.

Extracting tips from the tipy is now numbered among the lost arts. By the time a man becomes tipy he has nothing tipable left.

"You seem to enjoy hearing that woman abuse her husband." "Yes, I was engaged to him before she met him. She took him away from me."

Any man would willingly pay 10 cents on the dollar if only someone would supply the dollar.

An Oklahoma man has seen his wife for the first time in ten years. She must be a movie fan.

Voltaire's Get-Rich-Quick Scheme.

The famous French satirical writer, Voltaire, was worth \$500,000 at the age of forty. But he did not earn his money from books. He made most of it, says the Mentor, by lending money to needy noblemen. He would lend on heir to an estate a large sum on condition that the heir should pay him 10 per cent interest on the amount as long as both of them lived. The heir would be neither required nor allowed to pay off the principal; and the agreement ended only when Voltaire died. Voltaire picked only younger men and because of his tubercular appearance had no difficulty in getting clients. It is said that when a prospective borrower hesitated the satirist could cough in a way that always closed the deal. The scheme was very successful—for Voltaire.

In the Depth of the Sea.

It is said that at a depth of only 200 fathoms the light of the unclouded sun penetrating the ocean is reduced to equality with the starlight of a clear night on the surface. At more profound depths the sunlight is entirely extinguished. Yet there are both light and color in the abysses, and at the bottom of the sea. The light is of phosphorescent origin, and it may be remarked that in general the fixed marine forms of life are not behind their free swimming allies in light emitting powers. There are illuminations produced by the movements of abyssal fishes through the forests of phosphorescent sponges, fan corals, red corals and other Algomania. The colors of deep sea animals are both brilliant and varied.—Christian Science Monitor.

The Bible.

There are many curiosities of the Bible seldom noticed by a person who simply reads the book's pages. The book contains 3,584,456 letters and 778,693 words; 31,173 verses and 1,180 chapters, besides 66 books. The books were written by forty men during a period of 1,600 years. The twenty-nine books of the Old Testament were classified: Law, 5; history, 12; poetry, 5; prophecy, 17. The twenty-seven books of the New Testament were classified: History, 5; epistles, 21, and prophecy, 1. The word "and" is found in the Bible 46,278 times, and the word "revere" but one. The nineteenth chapter of II Kings and the thirty-seventh chapter of Isaiah are alike. The middle verse of the Bible is Psalm 47:3.—Albany Journal.

The Spider in History.

The spider has the good luck to be protected in some measure by legend, one of which is that this active little spider wove a web from divine inspiration over the spot where the Christ-child was concealed, thus baffling the agents of Herod. It is true that the spinning of webs in an almost incredible short space of time across caves and other places of concealment has protected fugitives from their pursuers. There is a most appealing tale of a prisoner immured in a dark cell whose only friend was a spider which came to visit him every day. Going back to mythology, Minerva had cognizance of the spider when she arranged a bit of private revenge. Flouting that she had a rival in weaving and embroidery in the Lydian maiden, Arachne, the blue-eyed goddess forthwith turned her into a spider, and so to this day the class to which those spinners belong has retained the name Arachnida.

That Inborn Longing.

There is no inborn longing that may not be fulfilled. I think that is as certain as the forgiveness of sins.—George MacDonald.

MONDAY—"UP THE ROAD WITH SAM"

On New Year's day, Misses Harriet and Mildred Olson and Fred Fox of New York.

Our partner, the Rev. L. A. Robinson, has been confined to his home with a bad cold but at this writing he is feeling better.

Methodist Episcopal Church, Rev. L. A. Robinson, will give the public service 10:45 a. m. and 7:30 p. m. Morning subject, "The Lord's Foot." Evening, "Some Thoughts on a Man's Sunday School Lesson." Subject, "The Lord's Foot." 11:15-12:45 Junior League Lecture, 2 p. m. Senior Epworth League, 7 p. m. Subject, "Organized Young People."

Mission study, 8 p. m. Subject, "The Lord's Foot." Sub-prayer from January 8 to 15. Subjects announced each evening for the following evening. All most cordially invited.

A party was given at the home of the Misses Margaret and Kathryn Dunn on New Year's eve, and all spent an enjoyable evening. All departed at 4 o'clock, wishing Mr. Dunn a happy birthday. Those who attended were Catharine Stingle, Martha Kendrick, Anna Corbett, Gusle Weal, Mabel Schlecht, Mabel Terpening, Hilda Avery, Bessie Bechtold, Lillian Schlecht, Margaret Gunther, Frank Sharkey, Peter Komase, John Banks, George Sproul, Chester Krom, John Burns, Kenneth Hotelling, David Pietrowski, Raymond Fabianek, Frank Slopski, John Miller, A. E. Vetoal.

Canadian Justice.
An Ontario farmer caught a young woman doing a "September Morning" on his property and had her hauled before the county magistrate. "What's the charge?" asked his honor. "That she hath in the spring, your worship, and the constable. The used dispenser of justice consulted a doctored copy of the statutes and hurried him off to the pages for several minutes, then charging the legal time and striking her. He said very solemnly: "The charge is dismissed and the miss discharged. I find that she had as much right to take a bath in the spring as in the cell."

SILQUA MADE GREAT RECORD

Winning Thirteen Races The Past Summer—Magazine Devoted to Horses Devotes Long Article Praising Horse And Its Driver, Percy Brink.

The Christmas number of the American Horse Breeder contains a lengthy article regarding the great record made the past summer by Silqua, 2:11 1/2, the little gelding trained and driven by Percy Brink, son of Fred Brink of Stone Ridge.

Among other things the article states that Fred Brink of Stone Ridge was represented at the races from early summer until fall by a combination that richly earned a place high on the 1921 honor roll for the campaign of his son, Percy Brink, with the trotter Silqua, 2:11 1/2, seldom has been equaled. "The young man the little gelding started on June 15, at Medford, Mass., and finished up at Jacksonville, Florida, November 17. In the more than five months on the firing line they won thirteen races, five second monies, and two thirds, only being twice outside the money in twenty-two races, which is more than any other trotter has started in in New York state, and Silqua is the champion race winning trotter of the state for the year 1921.

"Little wonder that the York state turfman is proud of the record made by this pair. When the returns are all in Silqua will be found about the busiest trotter of the year. Silqua had no hand-picked campaign, but tough fields to meet week after week, and defeated a lot of good trotters.

"This is Silqua's seventh year at the races. The horse has been in charge of Frederick Adams of High Falls as caretaker during his long campaign which covered every state that borders on the Atlantic Ocean.

"Percy Brink, his training owner and driver, is only 22 years old. This is one of the pleasing things of Silqua's remarkable campaign for the sport greatly needs young reinmen of more than ordinary ability, which this young reinman has."

OUR DAILY PATTERN.

A Smart "Top Garment"

Pattern 3767 is here illustrated. It is cut in 4 sizes: Small, 34-36; medium, 38-40; large, 42-44; extra large, 46-48 bust measure. A medium size requires 4 1/4 yards of 54 inch material. The width at lower edge is 2 1/4 yards.

Bolivia, polo cloth, broad cloth, velours, duvety, caoutchou, satin and pile fabrics are good for this style.

A pattern of this illustration mailed to any address on receipt of 12c in coin or stamps by the Pattern Department, The Freeman, Rondout, N. Y. Be sure to state the size wanted.

Catalogue Notice.

Send 15c in coin or stamps for our up-to-date fall and winter 1921 catalogue, containing 550 designs of Ladies', Misses' and Children's Patterns, a concise and comprehensive article on dressmaking, also some points for the needle (illustrating 30 of the various, simple stitches), all valuable hints to the home dressmaker.

Acts Deaf to Escape Agents.

The young housewife whose home was in the suburban village was too kind-hearted to turn away peddlers. Gradually she acquired a great supply of things that she had bought but didn't want. Her husband devised a remedy. "Jack told me to pretend that I was deaf when agents called," she explained. "I've done it ever since and they haven't been able to sell me a thing. No peddler can put his sales arguments across by writing his speech out. After shouting at me for a few seconds while I shake my head, they give it up in disgust and go to the next house."

Ancient English Law.

Recently it has been discovered at Macclesfield, England, that a brake-block on a cart must not be made of an old law be allowed to squeak. A quarry owner was summoned for allowing a cart to be driven without an appliance for lessening the noise caused by the brakes, and though he pleaded that the cart did not make as much noise as many motorcars, he had to pay the costs of the prosecution. Macclesfield is a town where they make silk. Will they some day discover that there is an ancient law forbidding silk to rustle?—Christian Science Monitor.

ON-A-JOB, OFF-A-JOB JIM!

Being a Story

Of how Jim got on a job and why he got off it again.

From artificial limbs to ice cream cones seemed quite a jump, but Jim was willing and glad to tackle any kind of a job. In spite of his eagerness to land a job, however, he could not refrain from sniffling in disgust as he entered the underground kitchen of the Schaeffer Cone Co. The room was dark, damp, dirty. Jim shuddered as he entered the place. He wondered how he was going to endure the filth of the place even for two days.

Then, as he was put to work packing the crisp ice cream cones into boxes, he doubted if he would ever be able to eat an ice cream cone again with any enjoyment, knowing that possibly it came from such a hole as the cones he was packing.

The proprietor looked at him suspiciously from time to time, and once when Jim caught his eye, he said, "You are Charlie's own private friend, aren't you?"

"Yes," returned Jim. "Why do you ask?"

"Oh, nothing. I just wanted to make sure."

Jim had read and heard much about employees being loyal to their employers, and had, on previous jobs, felt under certain obligations to the boss, but in a case like this, he doubted very much if he owed them any allegiance, and thought that his duty to the public was greater than his consideration of the proprietor. During the night he seriously considered reporting the matter to the health officials, but had reached no definite decision the next morning when he reported for his second day of work.

He was put on the job of mixing the dough to be used for the cones, and if he was disgusted with the filth on the previous day, he was even more nauseated. "How do you get by with all this?" he asked.

"How you mean?"

Jim didn't attempt to explain. He merely spread his hands apart in disgust. A short time later, Schaeffer opened the door to admit a man whose face Jim could not distinguish in the gloom. A low whispered conversation took place. Jim could not catch the words but he knew that money was changing hands. As the stranger departed, he called back, "Well, that settles matters for another month. So long!"

"So that's how it's done," thought Jim, and aloud to Schaeffer, "How much do you pay him during the course of a year?"

"I don't know what you are saying."

"You could save money by cleaning up this place. It wouldn't cost you as much to keep this room sanitary as you pay that man to keep silent."

"I couldn't use this place at all. It's condemned."

"So it's condemned, is it? Well, so are you, for I'm going to report the case at once."

"Think of my business, my children. Have pity on me."

"I'm thinking of the thousands of children who will eat the cones you make in this den of filth. Never mind my pay. I don't want it. Get busy and look for a place to move your outfit to. I'll give you one week to vacate. In seven days I will be back to make my complaint."

When Jim returned, as he threatened, to Schaeffer's Ice Cream Cone Company had closed its doors.

Scams Sew!

To the mother of a large family life is just one darned stocking after another.

"I never tasted such good coffee as this"

That is the verdict of everyone who drinks Reliance for the first time.

Because Reliance

Coffee measures up completely to that first-of-all coffee tests—Smell. Reliance Coffee tastes just as good as it smells.

For years we have mellowed and roasted Reliance by a special process—a process unvarying and exacting. As a result, thousands of families have adopted it as the one particular brand that is served in their homes.

That same characteristic aroma stays right in it when you pour it in the cup. It stays because we roast it in to stay. And that is why it is different and better.

Tell your grocer to bring you an oval canister of Reliance Coffee—the coffee that tastes just as good as it smells.

A HIGH GRADE INVESTMENT

The people of the State of New York through their representative at Albany regulate the capitalization and rates of gas and electric companies. They passed a law providing for a Public Service Commission empowered to fix these rates. No securities can be issued by a public utility company without their approval.

Thus the Public is protected against the issue of wildcat securities as well as unfair rates for service, and, on the other hand, the Company is enabled to secure a reasonable rate of return on the cost of the investment used for the service of the Public.

This policy has been found necessary in New York State as well as in practically every State in the Union, for the reason that without adequate rates the necessary funds for financing the needs of the Public could not be obtained and the Community itself would suffer.

This Company's properties have been inventoried and appraised and on the basis of their reproduction cost such appraisal is far in excess of the valuation fixed by the Public Service Commission in their order of September 16, 1920, which valuation was based on the actual cost of the property.

The Bonds now offered have been authorized by the Commission after careful examination of the books and accounts of the Company, and the need for the construction expenditures by their engineers.

This investment is now available to Our Customers in amounts of \$100, \$500 and \$1,000 or over. It can be secured by a small payment with the subscription and the balance in monthly payments over a long period. In this form, it offers an ideal method of practicing Thrift in a safe security at a favorable rate of interest.

Poor Kitty!
A Kansas farmer had just built a big barn. One day as he was setting off for town he told his two sons to cut a small hole in one of the sides, so that the cat could get in or out at will. The boys cut the hole just beside the big barn door, but when the farmer returned and saw it he was much displeased. "Why can't I depend on you boys to do a single thing right!" he exclaimed angrily. "Don't you know that hole is in the wrong place?" "Why?" asked the boys. The farmer fairly scolded. Leaping from the buggy, he seized the barn door and swung it open, and of course it covered the aperture. "Now, where is your cat hole?" he shouted. "How is the name of sense can the cat get into the barn when the door's open?" —Youth's Companion.

Soft Soap for Plain Men.
A handsome man is seldom as good as he looks, but a homely man is full of agreeable surprises. —Boston Transcript.

Power of the Eyes.
When the eyes are closed the face shows only what has happened, not what is happening; the present and the future appear, as it were, wiped off. Only the indelible lines which have been wrought by grief, by passion and by character traits are made clear in a facial confession, simple, passive, cynical. When the eyes are open this confession is not half so clear. The reason may be easily explained. The eyes are the only feature upon which time does not make any deadening, static impress; while the rest of the face is little more than a mask of the past, the eyes are changing mirrors of the present and of the future. They have, moreover, the transforming power of all dynamic things, and can make faces the most deeply lined, mobile and glowing.

Biggest Bird Cage.
Probably the world's largest bird cage is in St. Louis, a dome of nesting 362 feet long by 100 feet wide and high and holding nearly 300 birds.

HAS GOOD WORD FOR PARSNIP

Writer Declares Vegetable, Which Seemingly Has Few Friends, Ranks High Among Root Foods.

The parsnip seems to have few aristocratic friends and few poets have sung its praises, yet the good old parsnip continues on its way without discouragement. In conversation, one hears a good deal about corn, wheat, potatoes, rye, oats, tomatoes, cauliflower, artichokes and beets, yet somehow, few persons discuss the parsnip.

This old vegetable was popular with pioneer Americans—the forebears of so many Americans who now look on the parsnip as too plebeian for the table. There can be no doubt about the antiquity of the parsnip and there ought to be no doubt about its respectability. It was cultivated by the Romans long before they entered upon their career of world conquest and world government.

The Romans ate this simple and hardy vegetable during that period when they were masters of the world, and in their decline they continued to serve the parsnip. It was once a wild plant, like most, or all, the fruits and vegetables that grow in orchard, field and garden. It is still found in its wild state along the roadsides and in waste places throughout Europe and temperate Asia, and it has many wild relatives in the United States.

Of the food value of the parsnip Dr. Wiley has said: "Most nutritious of all root crops except salsify. Carbohydrate content 16-17 per cent, nearly as high as the potato and more than twice as high as beets, carrots or turnips."

Friends of the parsnip contend for its hardness. Persons who claim to be acquainted with its habits say that it will flourish in any reasonably deep soil, and will, under favorable conditions, yield a heavier crop than any other root.

Some experience is required in preparing the parsnip for the table, but this may be said of all other vegetables. The parsnip which has been first boiled and then baked until there is a brown crispness about the outside, is that parsnip which is in greatest favor with those persons who eat parsnips.

Candy From Sweet Potato.

By a roundabout process the sweet potato is to be turned into an important raw material for the candy-maker. The succulent southern tuber is, of course, first turned into sirup, and the candy follows in due course; for, contrary to the usual belief, not all candy is made from sugar, sirups forming an appreciable part of the supplies. The increased use of the sweet potato will be a boon to the not too prosperous southern farmer, as it will enable him to diversify and rotate his crops, and if the cotton or tobacco crop is bad will tend to equalize the losses, for sweet potatoes are easily grown. The molasses factory will take the "sweets" and turn them into sirup, giving the farmer a much higher profit from his crop. The factories will be located in sections where the sweet potato is most easily grown, and this will give the farmers of these sections a new line of profitable agricultural endeavor.

Japan Conserves Her Forests.
Much is being done in Japan to encourage conservation and reforestation and the government and forestry associations are endeavoring to bring to the people a knowledge and realization of the conditions which must be met, says the American Forestry Magazine. Japan has now three imperial universities, four academies and several lower class schools of forestry. The manufacture of wood pulp is a

growing industry in Japan. She now has 30 wood pulp mills and produces annually 250,000 tons of chemical and mechanical pulp. The consumption of pulp wood is about 400,000 cords a year. Spruce and fir are mostly used as pulp woods and are grown in Hokkaido and Sakhalin, the northern islands of Japan.

Effects of Electricity.

The observations of an eminent scientist as to the effects of electricity on the animal body show some remarkable results. Man has much greater power of resistance, or much less susceptibility, than many other animals. A leech placed upon a copper plate that rests upon a larger plate of zinc is unable to crawl off on account of the feeble electric action excited by the contact of the metals.

Horses are troubled by slight attentiveness of potential. An ox treated for rheumatism with electricity succumbed to a current absolutely inoffensive to man.

Saving Himself.

Junior is a bright four-year-old. "Can I go over to Helen's?" he asked as he yawned on the porch at eight o'clock one night. "No, you stay right here." "I mean in the morning, not tonight."

No Symptoms.

"Who is the mysterious stranger?" "Some kind of investigator." "Working for the government?" "I doubt it. He keeps pretty busy."

The Shrieking Cat.

The Canada lynx, or leopards, is in the habit of uttering horrifying shrieks when it is hunting. It is surmised that the shrieks are for the purpose of terrifying the animals for a long distance around so that the lynx may detect their whereabouts by their stealthy movements. This is contrary to the habits of most members of the cat tribe, which stalk their prey in utter silence.

No Danger of Collision Yet.

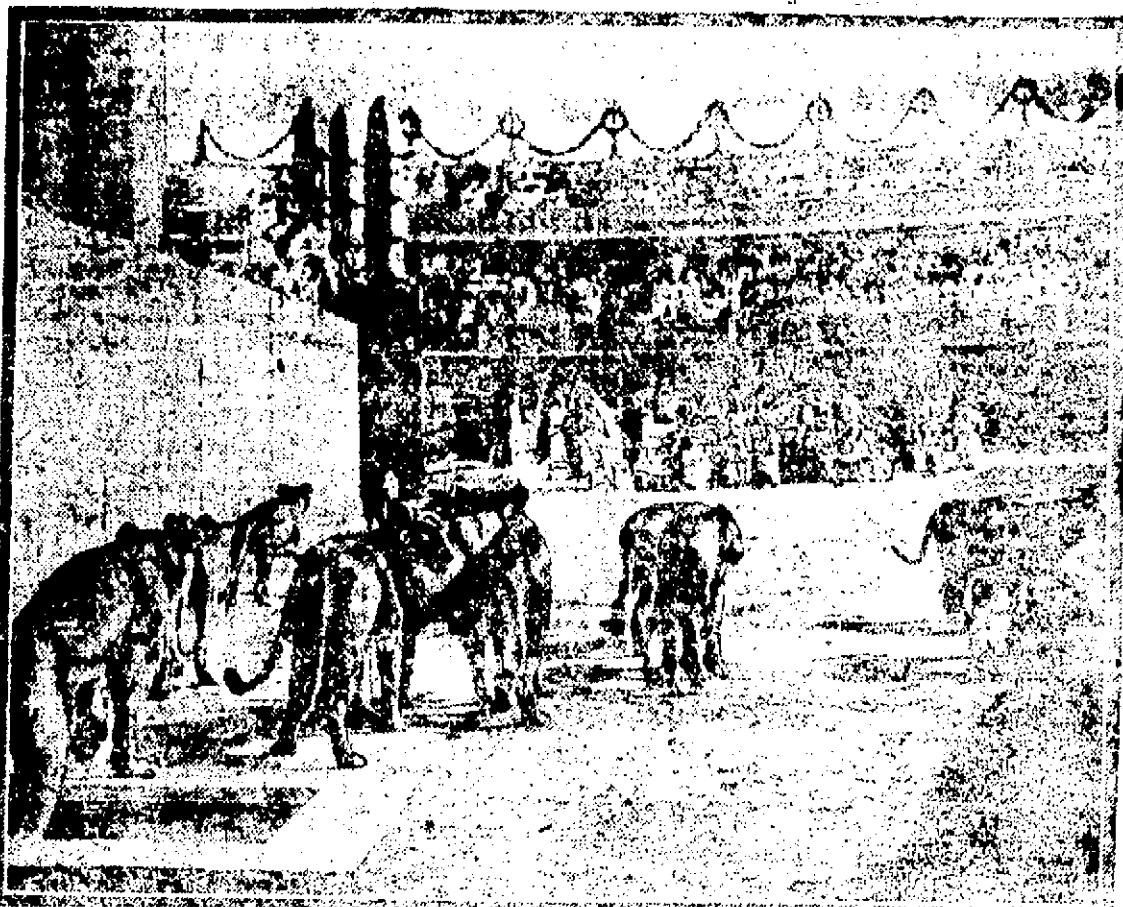

The moon is getting nearer to the earth at a speed of about fourteen feet in 200 years. Astronomers up to the present have not been able to explain why this is so.

K. H. S. TEAMS ARE VICTORIOUS

Basketball in both phases, women's and men's, went big in the high school Friday when the girls' Varsity roped and "hook-tied" the Alumnæ to a 23-15 tally, and the boys' Varsity bewildered their Triangular opponents 42-20.

The girls, captained by Miss Estelle Rodgers, slipped in, around, between and about the Alumnæ until those fair followers of the game were completely dazed. Miss Rodgers was high scorer, but she was very ably backed by Miss Kolb as a forward.

Miss Walker at center proved agile and quick on her feet and she played Minnie Simpson remarkably well. The Misses McLaughlin and Bruckner worked very well at guards.

In women's rules only the forwards are allowed to shoot and this accounts for the frigid-looking list of zeros in the scores.

The honors for the Alumnæ's summary are evenly divided. Miss Hurley and Miss Herdman played fast forward positions and the passwork of each is very commendable. At guard the Misses Pauline Van Wageningen and Margaret Meeker intercepted many at their opponent's passes. Miss Simpson as center displayed the sort of playing that made her name a by-word in girls' athletic circles during her high school career. Miss Simpson captained the girls' Varsity one season in high school.

Girls' Varsity.

FORMER PATRONS, ATTENTION. Am ready to fill orders for my home-made sausage of different kinds; also can furnish finest Swiss and Limburger cheese, pickled herring. Phone 4-F-3. Auto delivery. A. KOHL, Saugerties road.

SNYDER BROTHERS EXPRESS. Phone 757. 828 Broadway. Baggage and delivery service; moving, and hauling; local and long distance.

fouls. The Triangles continued throughout the quarter to hold the Varsity at bay, and the quarter ended with the Triangles six points in the lead, the score being 12-6.

Both teams started the second period with two freshmen in the lineup. Thompson and Bott, and fast passwork marked the resumption of play. A foul was charged against the Triangles and Bott made the point. Then Rowland slipped on a notch and scored a beautiful field goal. Rowland's playing, like Berger's, throughout the game was typical of their ability and much of the Varsity's success is due to their display. Berger scored a field, a difficult overhead sinker. Bott scored a foul and the score stood 13-6. Bott sunk another complimentary Varsity one point in advance of the Triangles. Berger then scored another field making score 16-13. From this time on, the Triangles acted as though completely bewildered. End of half. Score, K. H. S., 16; Triangles, 13.

The second half was snappily enacted. Rowland and Bott, the star complimentary shooter, switched several points toward the Varsity score while Anderson and Schmidt guarded their adversaries as though their lives depended upon it. Mr. Hall's refereeing caused the game to move rapidly and both teams were highly satisfied with his decisions.

The score:			
	F. G.	F. P.	T. P.
K. H. S. Varsity	16	13	35
Rowland, lf.	5	4	14
Berger, rf.	4	0	8
Schmidt, c.	0	0	0
H. Anderson, lg.	0	0	0
Dressel, rg.	0	0	0
Bott, rg.	0	0	0
Totals	10	13	35

Summary: Referee—Hall, Y. M. C. A. "Time"—K. Davis. Scorer—Vogt. Fouls committed, K. H. S., 17; Triangles, 25; Score at end of half, K. H. S., 16; Triangles, 13. Length of halves 20 minutes.

Many Bug Varieties. We have in the United States a long list of insects we usually designate as beetles, says the American Forestry Magazine. There are some fifteen thousand different kinds of them, and they range in size all the way from little ones that it almost requires the use of a microscope to see, to such giants as the Spotted Horn beetle.

Success Means Work. There are very many people who have great expectations, but the trouble with most of them is they won't exert the effort necessary to realize what they expect. Under present competitive conditions success comes only through hard work.

Accurate Optical Work. A naturalist is the last person in the world one would expect to succeed as a farmer. They won't plow a field if a bird has made its nest there. John J. Audubon, greatest nature student of his day, bought 40 acres at Carmansville, on the Hudson, to do some farming. The best part of his property was fenced in for deer, elk, and wolves. His orchard, 200 acres of apples, pears, plums, apricots, and nectarines, was left as a paradise for birds—it was Audubon's study. However he had no scruples against fishing, and caught 200-pound sturgeons in the Hudson.

NEW YEAR IS CLOCK TIME. Time to think of getting a new clock to take the place of that old one which has outlived its usefulness. Treat yourself with the advent of the new year to a clock that will last you for many years and always tell the time truthfully.

Cordially Yours, SAFFORD & SCUDDER JEWELERS.

"The House of Lucky Wedding Rings."

KINGSTON TAXI CONSOLIDATED, INC. Open and Closed Livery Automobiles GARAGE: 11 RAILROAD AVENUE Kingston, N. Y., Dec. 27, 1921.

Geo. J. Schryver Motor Car Co. Gentlemen:

The Kingston Taxi Consd. Inc. has been operating one of your Overland Sedans for several weeks in its hardest service—especially during our Christmas rush—and this automobile has proven itself the most sturdy small sedan we have ever used. Our chauffeurs have frequently stated that passengers favorably comment upon its easy riding qualities.

Its cost of operation has been one-third less than any other car in our service.

We feel this favorable opinion is due you, as the agent of this excellent small automobile, and it is our pleasure to make this statement to you voluntarily.

Very truly yours, KINGSTON TAXI CONS. INC.

W. H. TEN BROECK, President.

Arabian Vinegar Finest. The vinegar made by the Arabs is said to be far superior to any other.

PLANT TREE FOR NEW BABY. Japanese Have Pretty Customs That Insure Shade and Timber for the Coming Generations.

In the inland sections of Japan, where the rice fields and the fishing villages of the coast and the inland sea have given place to the farms of the country, the average man of that country best knows, there are some few stretches of forests and tree-covered plains and hills that are impressive as well as picturesque.

But in most of Japan the tree is a puny, stunted, carefully tended and artistically trimmed creation, sometimes giving the impression of being more man-made than "happening by accident."

One of the reasons there are almost invariably fine trees surrounding the homes of the well-to-do of Japan is because when a baby is born a tree is planted in honor of the new-born child. The tree is called "the baby's tree" often is given the name of the child, and both tree and child grow up together.

During the years when the baby is growing up the child's tree is watched over both by the parents and their gardener, as well as the child. Many a Japanese mother would fear that her child was about to die if the child's tree were to become sick and die. And they take it as the best possible omen when the tree flourishes better than any other tree in the neighborhood.

Nothing is permitted to harm this tree until the day comes when the child is to be married. Then the tree is cut down and its wood is made into an article of furniture for the new home. This furniture is treasured, and is given the place of honor in the house it grew all these years to decorate.

A Stinging Plant. Why the Indian turnip stings has been discovered. The name by which the Indian turnip is officially known is arisaema triphyllum. It is a member of the great arum family and has some of the qualities of its relatives, the green dragon, sweet flag, skunk cabbage, calla, calladum, renubair, onion, horse radish, grape, wandering Jew, calceolus, fuchsia and phyllocladon.

The acidity of the Indian turnip has been demonstrated by Prof. William B. Lazenby of the Ohio State university to be due to the presence of needle-shaped crystals in the cells of the plants. Crystals, called "raphides," occur in a number of plants, but in most of them they are coated with unmelting matter. Those in the Indian turnip have not this covering and when the plant is chewed or tasted the sharp points of the needle-like crystals come in contact with the lips, tongue and membranous surface of the mouth. They bite, burn and sting.

Made Paradise for Birds. A naturalist is the last person in the world one would expect to succeed as a farmer. They won't plow a field if a bird has made its nest there. John J. Audubon, greatest nature student of his day, bought 40 acres at Carmansville, on the Hudson, to do some farming. The best part of his property was fenced in for deer, elk, and wolves. His orchard, 200 acres of apples, pears, plums, apricots, and nectarines, was left as a paradise for birds—it was Audubon's study. However he had no scruples against fishing, and caught 200-pound sturgeons in the Hudson.
